

Urban Resilience Intensive Training

International Urban Resilience Academy

2021

19 - 30 July | *ONLINE*
CALL FOR PARTICIPATION

The training is for middle and senior career practitioners, policymakers and researchers working on urban challenges to deepen the skills and competencies and learn how to apply a system approach to complex urban issues and be part of a global community of urban resilience professionals.

Through this highly participatory programme, you will deepen the understanding of urban resilience; and respond to the need for systemic change in tackling global challenges, for just green recovery and transition, with a specific focus on COVID 19 recovery and climate change.

DEADLINE FOR APPLICATION
15 May 2021

Fee: 1.200€
Fee reductions/scholarships are available for applicants from the Global South
